

MOSTOSTAL POMORZE SA
Marynarki Polskiej 59
PL 80-557 GDANSK

LETTER OF REFERENCE

Hereby we certify that MOSTOSTAL POMORZE was chosen by us as a Subcontractor for fabrication of the following steel structures for Åsgard Subsea Compression Project:

- **SHS Lifting Frames:**
 - Compressor Module,
 - Scrubber Module,
 - Inlet Cooler Module,
 - Spool Interface Module,
 - Discharge Cooler Module.
- **Transportation Frames:**
 - Compressor Modules,
 - Scrubber Modules,
 - Inlet Cooler Modules,
 - Spool Interface Modules,
 - Discharge Cooler Modules,
 - CPDU Modules.
- **MHS Lifting Frames:**
 - Pump Transformer Modules,
 - CPDU Transformer Modules
- **Offshore skids:**
 - Pump Transformer Modules,
 - CPDU Transformer Modules,
 - Pump Modules,
 - MEG Modules.

Total weight of fabricated steel structures was ca 350 Mg.

Project was executed from April 2014 to January 2015.

After fabrication MOSTOSTAL POMORZE also installed on SHS Lifting Frames docking heads.

MOSTOSTAL POMORZE performed works in accordance with drawings and applicable procedures stated in the Contract. Fabrication was executed by skilled personnel in a safe and efficient manner.

At all times during the production high performance standards were kept and final product complied with all our quality requirements.
