LETTER OF RECOMMENDATION

Reference is made to the Contract signed between KVAERNER STORD AS and MOSTOSTAL POMORZE SA for execution of works for EDVARD GRIEG Project between May 2013 and April 2015.

We confirm that MOSTOSTAL POMORZE executed the following works:

1. Prefabrication and assembly of sections for Main Deck Module and Utility Module – main, secondary and outfitting steel - ca 3 400 Mg,
2. Surface protection – ca 34 000 m²,
3. Passive Fireproofing (PFP) – ca 10 000m²,
4. Fabrication of Flare Stack including piping (6Mo, Duplex, 316L), PFP, metalizing, installation of flare tip, rigging – ca 300 Mg

MOSTOSTAL POMORZE demonstrated professionalism in all aspects of the project.

The works were completed on planned schedule without any accidents. It should be noted that MOSTOSTAL POMORZE during the cooperation proved to be very flexible and successfully faced situations which cannot be foreseen with appropriate alternative realization plans.

Good organization of works, achieved high quality and safety results enable us to consider the overall result of our cooperation with MOSTOSTAL POMORZE as very positive.

Yours faithfully,
for Kvaerner Stord AS

Knut Ove Øgård

Site manager for EG project in Poland
